

# Regarding the Help Mark Tag

The Help Mark tag was created to make it easier for persons who require special assistance or consideration, including those using prosthetic limbs or artificial joints, those with internal disabilities or intractable diseases, or those in the early stages of pregnancy. This tag informs others that a person needs consideration, even when their needs are not apparent from their appearance.

The Help Mark tag can be attached to bags or other items using a strap.

We are working to popularize this mark so that persons wearing it can more easily receive various forms of assistance in their daily lives and during disasters.

## Caution:

Be careful not to get the strap caught in a closing door.

Be careful not to lose it.

## Stickers:

You can attach the included sticker to one side of the card as needed.

You can write any information you wish to convey on the sticker.

## Example:

Please fill out the details of the support you require.

I need your support.

Please call the person below and state my name.

My name:

Contact 1 phone number:

Contact 1 name:

Contact 2 phone number:
